

'Passive House for all' is the main theme for the 21st International Passive House conference – also apparent with the housing complex in Uttendorfgasse in Vienna, seen above. The conference also offers excursions to Passive House buildings in and around Vienna. © PH Austria

Passive House for all! 21st International Passive House Conference, 28 | 29 April 2017, Vienna | Austria

Passive House for all! That's the motto for this year's [International Passive House Conference](#), the year's premium Passive House event, where about 1000 thought leaders and innovators from around the world gather. It's all about energy efficient construction now and in the future. This year's slogan intend to touch upon the diverse applications that are possible with the Passive House concept.

[Lectures](#), [workshops](#), [excursions](#) and [evening events](#) allow you to share your experience with other professionals and to learn more about the world's most energy efficient building standard.

The upcoming Passive House conference will take place in the beautiful Austrian capital Vienna which is increasingly turning to energy efficient construction.

Rich conference programme

Two days of over [100 lectures](#) on all relevant Passive House topics, such as residential buildings, schools, kindergartens and other non-residential buildings in Passive House standard, retrofit examples, components, commissioning and monitoring, methods and tools, renewable energies and even Passive House high-rises! All presented by top-class international speakers! Simultaneous translation into English in all German sessions will be provided.

21ST INTERNATIONAL PASSIVE HOUSE CONFERENCE 2017

Exhibition and evening events

The conference is accompanied by the [Passive House Exhibition](#) where [all leading manufacturers](#) present their latest products. On Friday, the [evening event](#) at the magnificent Vienna Museum of Natural History is the place to be, don't miss it!

Workshops

For all those wishing to start even earlier, Passive House Institute is offering a comprehensive [workshop programme](#) in the run-up to the conference (24 - 27 April 2017). In addition to [PHPP](#) and [designPH basics](#), a range of specialist workshops will also be available. Brand new workshops relating to [energy efficient hot water systems](#) as well as [commissioning and optimised operations](#) are also on offer, as are workshops on [windows](#), [cooling and dehumidification](#), [PHPP for retrofits](#) and [designPH](#).

Excursions in and around Vienna

Discover Vienna's Passive House buildings and talk to their designers, residents and users! On Sunday 30 April 2017 you will be able to participate in [excursions](#) to various Passive House buildings in Vienna and its surroundings.

Passive House Institute is looking forward to welcoming you at the 21st International Passive House Conference in Vienna!
