

opfinex

BY forestX

With Optinex, you get a planning and optimization solution that covers the entire value chain for sawmills and wood-producing companies, from raw material to finished product.

optinex

1. The Only Planning Tool You Need

Optinex operates at tactical, operational, and strategic levels, covering all time horizons and every step of the process.

2. Digital Twin

With Optinex, we create a digital twin of your business – modeling your machinery, capacity, raw material inflow, and market. This twin serves as the foundation for your optimizations.

3. Optimize the Entire Value Chain

Optinex optimizes the entire value chain, from raw materials to finished products.

4. Optimize Specific Processes

Optinex includes specialized modules for CLT and GLT production. For example, the glue-laminated timber planning module is already in use by producers in Central Europe.

5. Latest Technology with SaaS

Optinex is a true Software-as-a-Service (SaaS) solution. Its optimization engine has been upgraded to fully leverage the power of IBM Watson's cloud optimization.

6. Seamless Integration with Your Business Systems

Optinex is designed to integrate with existing business systems, reducing manual work and streamlining operations.

7. SAP Integration

Optinex integrates seamlessly with business processes in SAP S/4HANA®. ForestX is an SAP partner.

8. Optimize Your Business Performance

Test and evaluate how different transactions impact your net results—continuously. Analyze how changes in product distribution affect profitability in real time.

9. Maximize Resource Efficiency

Optinex helps you make well-informed decisions, optimizing raw material utilization and facility efficiency while managing production bottlenecks.

10. Continuous Development

Optinex is owned and developed by ForestX. As a Swedish product, it benefits from a dedicated in-house development and maintenance team. Today, Optinex is trusted by leading sawmill companies in Sweden and Central Europe.

ForestX as an SAP Partner

ForestX is a partner in the SAP PartnerEdge® program. The SAP PartnerEdge program provides the enablement tools, benefits and support to facilitate building high-quality, disruptive applications focused on specific business needs – quickly and cost-effectively.

Available on
SAP Store

The screenshot shows the SAP Store product page for Optinex. The page title is "Optinex - planning and optimization for sawmills and wood producing industries". The main heading is "Planning and optimization for the sawmill and wood industries". Below this, there is a short description: "A planning and optimization tool for the entire value chain of the sawmill and wood industries. Adding industry specific planning to SAP S/4HANA customers. Operates at tactical, operational, and strategic levels, covering all time horizons and every step in the process. The solution provides custo...More". A "View Pricing" button is visible. To the right, there is a video player with the Optinex logo and a play button. At the bottom, there are sections for "Solution Types" and "Works With 5 SAP Solutions".

Optinex on SAP Store

Optinex is available on SAP® Store, the online marketplace for SAP and partner offerings.

Optinex integrates with SAP S/4HANA and delivers a planning and optimization tool for the entire value chain of the sawmill and wood industries to customers.

forestX

ForestX offers digital solutions and business expertise for the entire forestry value chain, from forest to finished product.

ForestX serves well-known forestry and sawmill companies in Sweden, Denmark, and Central Europe.

The company owns and develops Optinex, a planning and optimization solution for sawmills, as well as CLT and GLT production.

One-third of ForestX's employees have a background in forestry. Together with experienced solution architects and developers, they bring extensive knowledge of the forestry industry's needs and digital solutions. ForestX also collaborates with a network of partners and specialists to support the digitalization of the forestry sector.

The company currently has around 60 co-workers based in Gothenburg, Falun, Uppsala, and Växjö, Sweden. ForestX also has team members working on-site with customers in Germany, Italy, and Austria.

Additionally, ForestX has a development team in Pune, India.
